

Gel Hood Box

165/175mm Depth

HEPA & ULPA FILTERS

MIKROPOR manufactures mini-pleated HEPA & ULPA filters as per the EN1822 Standard. The dimensions, efficiencies, air flow requirements and the frame construction defines the type of filter to be manufactured. As per the following codification table you can easily place your orders. Any standard or special dimensions are available.

Frame Material: A Aluminium Light weight
 G Galvanised Steel Easy to assembly
 S Stainless Steel Filter change in room
 Perfect sealing between filter and box
